## Long Home Burglarized

Uncirculated coins, boxes and boards were among items stolen from the Lee T. Long apartment in Indianapolis recently.

Long, an Indianapolis dealer, reported the loss was from six to seven thousand dollars, retail value.

"Practically all of my uncirculated coins, boxes and boards were taken," he stated.

The burglars apparently gained entrance to the residence at 4806 East Washington through a 9 by 13 inch service door on May 25 while he was attending a funeral, Long said.

That morning, Long said, "a man called me about 9:20 a.m. ... to ask if I had some Mexican coins. I said yes, a few. He asked to come out and see them. I told him no, as my wife was to pick me up soon for we were going to a funeral..."

Long returned at 10:45 a.m. to find the door and a back window open and another bag of coins ready to take. However, the burglars had left in haste, leaving some of the better coins behind.

One of the neighboring residents in the 12 apartment building saw what he believed to be the burglars, however no one has been identified to date.

Information concerning the coins taken can be obtained from Long.

## Milton Holmes Collection Scheduled For Stack's October Auction Sale

The collection of coins formed by Milton A. Holmes, prominent Wall Street broker, of New York and New Jersey, will be sold at an unrestricted auction October 5, 6, 7 and 8 by Stack's of New York.

Mr. Holmes, now deceased, started collecting in 1907 and many of the coins contained in his collection have extensive pedigrees and can be traced back nearly 100 years.

A portion of the coins are from famous collections offered for sale at auction and privately during the last 50 years.

The auction is made up entirely of Mr. Holmes' collection with no additions. The sale is expected to gross nearly \$200,000. There will

## Many Attend IAPN Fete; Four From United States

By Hans M. F. Schulman

I am writing you from the hall where the I.A.P.N. (International Association of Professional Numismatists) is meeting; Mr. Jacques Schulman of Amsterdam, Holland, your correspondent's cousin, opened the meeting with a welcome speech after the curator of the museum in Lausanne had opened the convention.

After secretarial and other reports, the confidential discussions started. William Fox Steinberg and Sol Kaplan were the only other U.S. members present other than myself.

The following members were present, mostly with their wives, others with their families. Jacques Schulman, Amsterdam, Holland; Peter Strauss, Basel Switzerland, from "Monnaies et Medailles"; Erich Cahn, Dr. Herbert Cahn, Frank Hemberg Lurich, all of Basel, Switzerland; H. Gluck, Stockholm, Sweden, of the Hirsch firm; J. Holm, Copenhagen, Denmark.

Xavier and Fernando Calico, Barcelona, Spain; Ivineito Santamaria Rome, Italy; Mrs. Nadia Kapamadj, Paris, France; Mr. Wolf of Button, Frankfurt, Germany; Gerhard Hirsch, Munchen Germany; Mario Ratto, Milan, Italy; Leonard Forrer of Jacques Schulman, Amsterdam, Holland; Mo. de Mayo, Geneva, Switzerland; L. Grabow, Berlin, East Germany; Mrs. Button, Frankfurt, Germany; E. H. Graf and Dr. L. Mildenberg of the Bank Leu, Zurich, Switzerland.

H. Rosenberg of Adolph Hess, Lucerne, Switzerland; H. Dreifuss, Zurich, Switzerland; H. Pilartz, Cologne, Germany; Prof. L. di Nicola, Rome, Marcel Platt, Paris, France; Granile Bourgeois, Paris, France; Mr. Werkner, Innsbruck, Austria; and Mrs. Kuehle

of Krocheldorf, Stuttgart, Germany.

We also spotted the presence, around the hotel, of John G. Ross of Chicago, Ill., who became a member during the assembly.

It was noted with satisfaction that the book about Salsbury coins by Probst had been received with great enthusiasm. This book of great scientific value, published by the I.A.P.N. (\$10), is still lacking in many U. S. numismatic libraries. We suggest that you order the booklet from your local dealer.

Your writer spent a hectic week since reporting to you from Damascus, Syria—a short visit to Istanbul during the first wild days of the Revolution made coin buying.

## Malaya, Borneo Issue Bills

New one dollar bills for Malaya and British Borneo are printed in iridescent blue on the obverse, top photo, and blue on the reverse as the dominant colors. A lion's head appears as the watermark in the center. The scenes on the currency show natives sailing and beaching a native sail boat. Size of the bill is 121 by 64 millimeters. ## Additional Displays Told For Vacationing Collectors

Coin collections and specimens available to visiting numismatists are still reaching Coin World—too late for inclusion in the special Vacation Edition of last week.

One of the most prominent of these exhibits is the Crutchfield collection on display at the Converse College, Spartanburg, South Carolina.

The collection was started more than 30 years ago by Ralph Crutchfield. Today the collection is owned by his son, Ralph Crutchfield Jr. It contains hundreds of coins representing 132 different countries.

One of the pieces is a silver Greek coin minted about 250 B. C.

Currently the family is working on a collection of United States coins minted in 1889, the year Converse College was founded. The collection is complete except for a 25 and 50 cent piece. This portion of the collection is to be donated to the school.

Included in the Crutchfield collection is a one dollar gold piece minted at Rutherfordton, N. C., the first of that denomination of gold coin to be minted in the nation.

The display also contains a \$3 gold piece, gold plated five cent pieces passed as \$5 gold pieces.

Historical U. S. medals are shown by the New York Historical Society, 170 Central Park West, 77th street, New York, New York. The medals may be seen daily except Monday 1 to 5 p.m. Saturday hours are from 10 a.m. to 5 p.m. There is no admission charge.

A membership collection of coins, tokens and currency—and plans to include tokens in the future for display—is recorded by L. H. Stephenson Jr., general manager of the Seashore Trolley Museum at Kennebunkport, Maine. Hours are 10 a.m. to 6 p.m. daily June 25 to Labor Day; 12 noon to 6 p.m. Saturday and Sunday May 30 to June 25 and Labor day to October 12. Donations are accepted.

Old Windmill, Jamestown Historical Society's exhibit at Jamestown, R. I., has a small amount of coinage and paper money which will be shown by appointment.

A few coins, medals and some paper money is shown at the Jordan Historical Museum of the Twenty at Jordan, Ontario, Canada, seven days a week May 11 through October 31 from 11 a.m. to 5 p.m. There is no charge.

Among the quarter eagles are various Charlotte and Dahlonega mints, a 1796 with no stars, 1808, and 10 others before 1834.

Half eagles from the Charlotte and Dahlonega mints include the 1861-C and D. There are also 35 coins of the five dollar series before 1818.

Many of the popular coins of pioneer gold, including the Bechtler, Wass Molitor, Clark Gruber, etc., are offered.

A limited edition illustrated catalog and list of prices realized may be obtained for one dollar from Stack's, 123 West 57th street, New York 19, N. Y. Reservations are being accepted now for the catalog which will be ready Sept. 1.

Also offered in the collection are 1,100 United States gold coins.

## Members To Design Crest

A contest to find an insignia symbolic of the Waterloo Coin Society, Ontario, Canada, and to be used as the organization's official mark is in progress, according to Bill English, editor of the club's bulletin.

Each member is to submit a design for the proposed crest—or be fined 10 cents, English said. The person who has the winning entry will receive a 1913 gold sovereign as a prize.

At a recent meeting Hap Fraser was presented with the special prize of the evening. A discussion of counterfeit coins were conducted by English.

The mid-June meeting was highlighted by a talk on Canadian varieties and die breaks by Ed Knight. An auction under the direction of Heintz Herzog was held.

## Coin Journal Goes Monthly

Coin Journal, a DLP publication of Abilene, Texas, has just announced the change from publishing twice monthly to once a month.

According to David Polley, editor, "The Coin Journal is being completely revised to join ranks with the leading publications in the country."

Three new features, a survey of prices of "yesterday and today," a rarity guide, and a best story offer will be included each month, Polley said.

## Bruce Brace Receives Roach Award

Bruce Brace was presented with the Alfred Roach Memorial Award at the fourth annual banquet and auction of the Hamilton (Ontario, Canada) Coin Club held recently.

Guests came from Burlington, Oakville, Toronto, Guelph, Waterloo, Kitchener, Preston, London, St. Catharines, Buffalo and Rochester. Many presidents from neighboring clubs were present.

Exhibits, bourse tables, a talk by Dr. Wilkinson and an auction were featured.

John Pittman displayed for the first time in Canada—other than in a British Columbia museum,—patterns of the British Columbia \$10 gold piece struck in silver and the \$20 gold piece struck in gold.

Final plans for the banquet and the C.N.A. convention in 1961 were topics of discussion at an earlier May meeting of the Hamilton club. Displays were made by Bruce Brace, Roman coins, and by Ossie Harris and Frank Kovach, U. S. gold, including 1946 50 cent piece, design through center; 1949 five cent piece, "scared beaver;" 1947 50 cent curved ML and an 1875 25 and 10 cent piece.

New varieties were exhibited by Jack Steves, Louis Zik and David Grewar.

Herb Leather was a special prize winner.

## Mint Director Mystified By Scarcity Of Coins

J. P. Roux, director of the mint in Pretoria, South Africa, is like other mint directors. He is wondering what happens to all the coins he strikes.

Since 1923, the South African mint has struck about 600 million coins of all denominations. Only about half that number are in circulation now.

"It's a mystery," said Roux, "in what happened to the rest of the coins. There is certainly a fortune in lost coins lying around South Africa."

## Reeding And Milling Reduces Coin's Wear

Reeded or corrugated edges on coins are used to protect the coins from wear and prevent fraudulent removal of metal.

Only silver and gold coins are made with reeded edges while the nickels and pennies do not because their metals are not valuable.

All coins, however, are made with a raised border, milled. The milling protects the coin's face from wear.

## Many Attend Wabash Show, Claffey, Watson Win Awards

A crowd of 1,200 persons attended the Wabash (Ind.) Coin Show earlier this month which was highlighted by the presentation of awards in 11 divisions.

F. C. Claffey, Indianapolis, Ind., was awarded the best of show award in the senior division while Connie Watson, Logansport, Ind., took the junior division honors.

Held at the Honeywell Memorial Community Center, the show was sponsored by the Marion (Ind.) Coin Club in an effort to interest enough collectors in the Wabash area to create a club for the community.

Collections from four states were displayed at the event. There were 29 bourse tables active at the show.

Winners in the 11 divisions were:

## The Romance of MONEY

By Ted R. Hammer

While some gold coins were struck in the first years of mint operation, no \$20 gold coins were issued until 1850. This is the famous double eagle mentioned so often in television westerns.

One desiring to collect only main types could get by with just two coins for a type set of this coin. It was the highest denomination coin issued regularly, although some \$50 "slugs" were minted. One \$50 coin was a commemorative coin, and not a regular issue, while others were minted privately more than a century ago.

The double eagle was authorized under an act of March 3, 1849. Its weight was 516 grains and it was 900 fine.

One \$20 gold piece struck in 1849 reposes in the U. S. Mint collection. Rarest date obtainable is the 1883, struck only as a proof, and which is listed in "A Guide Book to U. S. Coins" at \$1,950.

Type of 1850-1907 had a large Liberty head, coroneted, facing left, with 13 stars, and the date at the bottom of the obverse; the reverse of 1850-1866 had a large eagle with shield, United States of America around the upper border, and the denomination "20 D" at the bottom.

Starting in 1866, the motto, "In God We Trust" was placed above the eagle; starting in 1877, the denomination "20 D" was replaced with "Twenty Dollars". These latter two constitute minor changes only.

In 1907 the standing Liberty coin made its appearance. This is considered one of the most beautiful coins — artistically — of all time. The first few coined were of a high relief variety, struck for collectors and for souvenirs. A few wire-edged specimens had the date in Roman numerals.

The reverse of the coin has an eagle in flight with "United States of America" and "Twenty Dollars" above the eagle. The motto was added to the reverse in 1908, above a rising — or setting — sun at the bottom of the coin. So one can have two coins for a complete type set — or six if he can afford to pay for minor varieties.

## Copper Medals Provide Free Admission To Vessel

Copper medals—minted from parts of the United States frigate, "Constellation,"—now berthed in Baltimore, will provide lifetime free admission to the Navy's oldest vessel.

The medals, struck from copper spikes used in the original construction of the ship in Baltimore in 1797, are being used to raise funds nationally for the restoration work required to put the

"Constellation" in original condition.

The medals are being distributed on the basis of one each dollar. Orders are to be placed to "Constellation," Baltimore, Md.

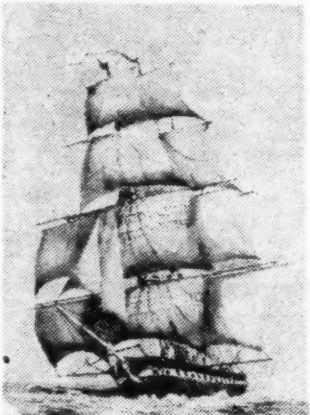

Restoration is being performed by private enterprise in Baltimore. When the Navy decided to scrap her, several individuals recognized the threat to a historic relic.

The original copper spikes were drawn from the rotted timber taken from the ship, melted down at the mint and struck into the souvenir medals.

Every dollar raised by this means will go toward replacing deteriorated planking, frames, masts, bulwarks and hundreds of other items so the ship can remain afloat.

Completed several months before the famous "Constitution," the "Constellation" saw action on numerous occasions during the 18th and early 19th centuries.

She remained on the Navy's active list until 1955. During World War II she was flagship of the Atlantic fleet.

This proud ship, the U. S. Frigate Constellation, is known as the birthplace of the United States Navy. Shown here on one of her glorious sea-going moments, the ship is now at Baltimore, Md., pier for restoration. Visitors may go aboard her free if they own a Constellation medal, which is helping to pay for her preservation as a historic relic by private enterprise.

## Bugs 'Funny' Terms

Some of the terms used to describe coins—particularly the diebreaks—is ridiculous. So comments LeRoy Burnett, who writes a column for coin collectors in the Lima Ohio News. I agree with him.

Dick Johnson

LeRoy cited the worst example of numismatic nomenclature in current use is "bugs bunny" half dollars. It is vague, ambiguous, and flamboyant, he says.

The term "bugs bunny" is applied to a variety of the 1955 half dollar which has a diebreak in the area of the teeth and lips. It gives the appearance of buck teeth, and someone with great imagination named it after the rabbit of the comic world.

"It's just too bad for beginners!" says LeRoy, as he ponders about the new collector encountering these cryptic terms for the first time. Coin collecting has grown by leaps-and-bounds in the last few years and there are new collectors reading these terms every time they appear.

Naming coin varieties is not new. The spiked chin and protruding tongue variety of the 1804 half cent is one of the earliest and well named. It means exactly what it says.

Look at the complete change over a few years ago from the word "Morgan" to "Barber" for this type of dimes, quarters and halves. The entire hobby was using the wrong term. But when brought to their attention every-one changed. It can be done!

The change over has not been accomplished with the term "penny." Many numismatists have championed the cause of calling the United States coin a "cent." But still you see the incorrect word "penny" in ads, and even printed on plastic coin holders!

I do not blame collectors for not using the term "cent" properly. They are under constant barrage from people outside the hobby constantly misusing the word, substituting "penny" when they mean "cent." The general public doesn't know—but collectors should.

It is time we start looking at the words we use every-day. If they are not correct, or not what we mean—let's change them!

The worst offender is: "microscopic." This word is used when a small mint mark is indicated. "Micro" is okay—it means small. But "microscopic" means it cannot be seen with the naked eye. How ridiculous it is to call a mint mark this! As our fellow columnist LeRoy Burnette says: "Numismatically, there just is no such thing!"

There are good numismatic terms that mean what we say. Why not use these? We will call attention in these editorials to inaccurate words as we encounter these in the future. But for the present drop "microscopic" from your numismatic vocabulary.

## Opportunity

In the two years since the laws for photographing paper money have been relaxed, no album manufacturer has taken advantage of the new opportunity.

President Eisenhower signed a bill in September, 1958, changing Title 18 of the U.S. Code. The government now permits photographing and printing illustrations of paper money for collectors without seeking special permission.

The bill specifically named albums as one of the items which could use black and white illustrations.

Now I would like to see some alert manufacturer place on the market an album where I could collect paper money of the world and illustrate it like a stamp album. Don't include too high denominations but keep it to the smaller ones.

Picture as many of the bills from around the world as possible. Wouldn't it be fun, for example, to collect all the dollar valued currency from every country?

Here's the opportunity, Mr. Album Manufacturer. And it's legal now, too. How about it?

## Letters To The Editor

Congratulations on your Coin World. It looks great and I think a weekly will go over great! Enclosed is copy for some display ads in your next issues.  
Amon Carter Jr.  
Fort Worth, Texas.

I guess that you have been waiting for this letter. It has taken us a few weeks to make up our minds, before breaking the "ice" and commence advertising in your publication. We certainly admire you for your unique method of inducing potential advertisers to come forth!

We do hope that your present results exceeded your expectations. The firm of Stack's, at this time, wishes to join the host of others in wishing you the very best for years to come. We can assure you that we study each issue quite carefully, and find the information contained therein most enlightening.

Benjamin Stack  
New York City

Was interested enough in the "letter to the editor" from the chap who drew a blank from your publication and yet got 1000 ORDERS from another publication to look up his ad. After seeing it was a wanted ad for a set that I would not put together and sell at his wanting price, all I can say is that he was so mad with the results of his 25 cent investment, what should have been a "1" or "10" was run off as 1000.

I have had a small ad or two with you. The results have been satisfactory and I DID NOT get 1000 replies. You will have another ad as soon as I see what Mr. Yeoman did for the hobby in the new Red book.

While on this subject, it brings an idea for some future editorial remarks that if collectors want to know what is the selling price of coins, watch the auction prices realized and not catalogs and dealers ads. Auction sales are the prices for actual sales and not some one's dream.

"Ricardo"  
Los Angeles, Calif.

(EDITOR'S NOTE—Coin World will publish letters when they are signed and will not use the writer's name if requested but the letters must be signed by the correct name and not by the pen name.)

Congratulations on your fine paper! Finest I have yet read. Enclosed find my check for subscription. Would like to see weekly mint reports.

William J. Carter  
Glendale, Calif.

We are well pleased with your Coin World. Enclosed is our check for two years' subscription. We have also placed an order with one of your advertisers and mentioned the name of your paper in our order. Our gift subscription is to go to our nieces and nephews, one of whom started saving coins about a year ago and now all the family are becoming numismatists. Best of luck to you.

The Harlans

Thank you for the sample copies. I am sending my subscription. Wishing you much success with this fine weekly coin paper. For sure, it's a must for everyone, whether a small or large collector.

Joe J. Doreish  
Santa Monica, Calif.

Tell Jim Kelly he has a fine column and gives the items needed for quick spot checks. I use it at the coin auctions to a great advantage. I notice that he has 1955 double—a thought on that, why not "Bugs Bunny" and 1941-42 dime?

Bob Belfield  
Philadelphia, Pa.

Enclosed is my check for your paper. I have seen quite a few of your issues and like them very much. Keep up the fine work.  
Merle L. Orlowski

We feel you have an interesting and informative publication that will benefit all coin collectors and the hobby in general.

# Paper Money Photos Are Now Permitted In Numismatic Ads

New Booklet By Former Chief Of Secret Service, H. E. Neal, Spells Out 1958 Photo Laws

Paper money may now be illustrated in numismatic advertising where it once required special permission.

The new law is spelled out in clear language in a recently published booklet, "No Pictures, Please!" by Harry Edward Neal, former assistant chief of the U.S. Secret Service.

Now retired, Neal has written a pamphlet that quotes and interprets portions of the U.S. Code that apply to reproducing paper money, coins, foreign currency, postage stamps and other items that the government frowns on duplicating in photographic form.

The widespread misconception that it is illegal to photograph coins is debunked by Neal who points out that there is no such law. U. S. and foreign coins can be photographed at any time. The story with paper money, however, is different.

Until September 2, 1958, when President Eisenhower signed a bill changing Title 18 of the U.S. Code, relaxing somewhat the restrictions on photographing certain government obligations, special permission had to be obtained from the secretary of the treas-

ury to duplicate any paper money. Now it is not only permissible to photograph currency, but it is also lawful to make printer's plates for illustrating articles and numismatic advertising—all without permission.

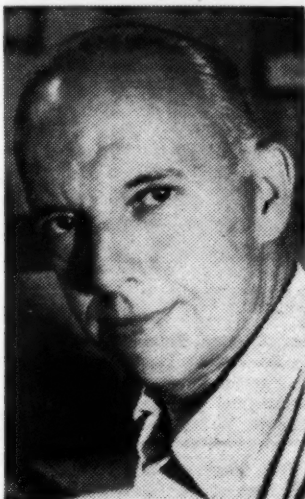

There are some strict rules, however! The illustrations cannot be in color, they cannot be too close to the size of the original bill, and the plates and photographs must be destroyed immediately after the final use for which they were made.

Harry E. Neal is certainly the man to know the rules about reproducing money. He spent a third of a century using these rules against counterfeiters—intentional and otherwise.

He joined the U.S. Secret Service in 1926 after serving a dull apprenticeship as clerk in the Washington, D.C., Post Office. The excitement of the Service rapidly led him to become an agent in 1931, in the New York district.

In 1940, he was transferred to the staff in Washington, D.C., and rose to assistant chief of the U.S. Secret Service.

He retired in 1957 to become a

Harry E. Neal, formerly in the Washington, D. C. office of the U. S. Secret Service, has written "No Pictures, Please!"—a booklet which simplifies U. S. photo laws.

full time free-lance writer. Seven of his books have been published, the most recent, an authentic history of the Service, "The United States Secret Service" was published March 24th.

Federal law prohibits photographing or printing government obligations. It particularly points out the person who makes the plate, prints the impression, or brings these into the country, as the guilty party.

However, the new revision to Title 18, specifically Section 504, permits the use of black and white illustrations of U.S. obligations for "numismatic, educational, historical, or newsworthy purposes in articles, books, journals, newspapers, or albums."

It also makes a special point of allowing legitimate numismatists to use paper money illustrations in their advertising. Non-numismatists, however, must still obtain permission from the secretary of the treasury to use a picture of any paper money in their advertising.

All types of U.S. currency are included in this law, but Section 8 lists these particular types: national bank notes, Federal Reserve notes, Federal Reserve bank notes, United States notes, gold certificates, silver certificates, and fractional notes.

"Such illustrations," quoting from the new law, "except those of stamps, shall be of a size less than three-fourths or more than one and one-half, in linear dimension, of each part of such obligation or security."

"The negatives and plates used in making the illustrations shall be destroyed after their final use for the purpose for which they were made."

Paper money illustrations must be printed in black and white. No color pictures are allowed, not even colors other than the originals.

Films, microfilms and slides of paper money are now permitted. They too, must be in black and white, however slides for projection on a screen are permitted in color.

The remaining portion of the U.S. Code, as it pertains to coins and paper money, is unchanged. It is still prohibited, for example, to make any advertisement, busi-

ness card, circular or handbill in the likeness of paper money.

The law also prohibits stamping or printing an advertisement on paper money or attaching anything to it. Pasting anything on coins, likewise, is prohibited. In at least one instance an advertiser printed disks and glued these on the backs of coins only to be arrested, prosecuted and convicted.

Of course, it is still illegal to make any "token, disk, or device" which too closely resembles a coin—the government jealously guards this monopoly.

Copies of Neal's booklet, useful for anyone who uses or makes illustrations of government obligations, can be obtained by writing the author, Harry Edward Neal, 5616 Marengo road, Washington 16, D.C. Cost of the 20-page pamphlet is \$1.50.

The value of 10 and 20 cent coins of China changes with the calendar.

During the second half of January, which is the last two weeks of the old Chinese year, one silver dollar will exchange for five 20's and 10 coppers. From February to the New Year, it will exchange for six 20's and 10 to 20 coppers.

Commemorative gold coins were first issued in 1903 for the Louisiana Purchase Exposition.

## Wabash Valley Members Trade, Sell At Meetings

Members take coins every meeting night to trade, buy, or sell at the Wabash Valley Coin Club, Terre Haute, Ind. It has auctions either at the Y.M.C.A. at the regular meetings or at some designated place.

Wilson Pollard, a dealer from Indianapolis, visited the club in April and gave a talk.

Two members' collections have been featured recently. Lawrence Snows collection has been on display at Swopes Art Gallery, Terre Haute and was shown over television. Curtis Granet's paper money collection, starting with fractional currency, has been displayed at several banks in Terre Haute.

The club was established Feb-

ruary 17th, 1959. It meets the third Tuesday of each month, 7:30 p.m., at the Y.M.C.A., 200 South Sixth street. There are 102 regular members, 10 of which are junior members.

Officers, elected in February, are: Robert Riggs, president; Bill Stein, vice president; Al Hastings, treasurer; and Betty Cass, secretary. All are of Terre Haute.

## Coin Firm Burglarized

A \$4,000 Memorial Day weekend burglary took place at the Gramatan Coin and Stamp Shop, 76 Gramatan Ave., Mt. Vernon, N. Y.

The exact loss reported by Frank Morra, owner, was set at \$4,242.05. Morra said the burglar or burglars took collector's items in United States coins and paper money valued at \$2,802.05 and stamps valued at \$1,440.

Police reported the thief entered through a skylight of a neighboring store and then broke a hole in a partition to enter the coin and stamp shop.

## IAPN Fete

(Continued from page 1)

ing quite dangerous and not advisable. A curfew for the night made the day very short.

Tanks and soldiers everywhere, which was not conducive to numismatics. However, cheerful-sunny Albans with its beautiful Greek coins was a welcome change.

Coin dealer Sepheriades, I.A.P.N. representative, had his store full of American coin collectors, who were trying to tell him that gold dollars sell for five dollars in the U.S.A., but Sepheriades knew the real value.

Milan was the next stop but Italy's national holiday made the day a delightful rest. Instead I made a beautiful auto ride over the high Simplon pass in the car of our good friend Mario Ratto, the outstanding Italian numismatist, to Lausanne. Late on June 2 we arrived in the I.A.P.N. convention town.

At the I.A.P.N. many of the members had proxies—your correspondent had 10, so did Mr. Steinberg. The firm of Stacks of New York were chosen new members.

The new convention date was set for 1961 in Rome around the 8th of September. This will coincide with the Numismatic International Congress organized by the International Bureau of Numismatics (affiliated with the United Nations).

The I.A.P.N. prize for the best catalog was given to Santamaria of Rome and everybody then went to the banquet which was held 20 miles away in an old castle.

I will tell more next week about the convention and some important numismatic decisions.

A plume on large silver coins of England, from 1619 on, indicated the coins were struck in silver from Wales.

## Association Seeks New Design For Seal

The Numismatic Association of Southern California is seeking a new design for its seal. A \$10 gold piece will be awarded for the winning design; a \$5 gold will go to the second prize designer.

The N.A.S.C. headquarters is 9620 Culver Blvd., Culver City, Calif.

The Denver mint was established in 1862 but did not issue coins until 1906.

# The Official PONY EXPRESS CENTENNIAL MEDAL

This Bronze Medal commemorates the Centennial of the famed Pony Express. It was authorized by Public Law 86-394 86th Congress, S.2454, March 18, 1960. The medal will be placed on sale July 1, 1960.

It is illustrated above\* and will be 1-5/16". It comes attractively packed in a soft plastic transparent folder, in an individually printed envelope. A printed leaflet of historical data also accompanies each medal. The medal will be executed by the United States Mint at Philadelphia.

The sculptured heads of Russell, Majors and Waddell, the founders and operators of the historic Pony Express, will appear on one side and on the other side is the famous Hansen Pony Express horse and rider.

The Pony Express was organized without a subsidy at a time of great national peril. It was, for a time, the only means of communication with California except by sea and was instrumental in holding California to the Union. The Pony Express has become famous throughout the world as the most dramatic expression of American pioneering courage. It will live forever in the hearts of all Americans, young and old.

# Trends Of Today's Coin Values

# Summer Offers Bargain Opportunity

By Jim Kelly

333 W. First St., Dayton 2, Ohio

"Good Ole Summertime" is here and with it come vacations and television re-runs. Many collectors can be found chasing a little white ball around the golf course but usually make their best scores at the air-conditioned 19th hole. The fish may not be biting nearly as well as the mosquitos but the lake and river resorts will be well attended by numismatics.

Jim Kelly

These and other activities will attract a great many collectors and in turn distract the coin dealers. To many of us dealers, this seems like a terrible waste of time and money—our time and their money.

Not only that, these customers will be returning with a good healthy suntan, relaxed and fit-as-a-fiddle, and it is going to be tougher to do business with them. Old-time dealers will recognize this as a normal situation and if necessary take on odd jobs to tide them over, or some may decide it is a good time to go on a diet. A few of the newer and more ambitious dealers try to force the issue and keep business going by reducing prices or making other concessions. We wouldn't be surprised to see trading stamps offered before the summer is over.

What we are taking the long way around to say is that summer is a normally slow period and equally normal is the tendency toward lower prices. This you will have noticed in advertisements in the various publications and it is also reflected in our Trends Department.

The point we wish to make is that this is a temporary situation—at least at the moment—and should not be looked upon as a general price decline. Rather, it appears to be a good chance to pick up some bargains as all indications point to an active bull market this fall.

## A Word Or Two Of Explanation

Since we have many readers who are just starting to collect rolls, for their information may we point out that a roll of cents contains 50 pieces with a face value of 50c; a roll of nickels contains 40 pieces with a face value of \$2.00; a roll of dimes contains 50 pieces with a face value of \$5.00; a roll of quarters contains 40 pieces with a face value of \$10.00; a roll of halves contains 20 pieces with a face value of \$10.00.

The condition for singles and rolls quoted is standard brilliant uncirculated. Mint sets are quoted in brilliant uncirculated condition, and contain the proper number of coins available from the indicated mint for that year. Proof sets are special condition (proof or mirror surface made only at the Philadelphia mint) and contain one coin of each denomination.

# Types Of Money Varied During Gold Rush Years

The old West may have had its six shooters, its covered wagons and plenty of material for TV scripts—but it also had its "men with the golden thumbs!"

There was plenty of gold in the mining areas — but no coins. So everybody carried leather pouches filled with gold dust.

A bearded miner would stride into the store, gather up supplies, and pay for them with pinches of gold.

Each item was priced by "pinches" instead of by dollars

and cents. Some necessities would cost only half a pinch.

This system got into trouble quickly—because of the variety of sizes of thumbs, the loss of valuable gold dust, and the time-consuming operation of weighing the dust to insure "pinch" uniformity.

Enterprise was the keynote of the West's development — and it wasn't too long before solid gold bars were minted in "pinch" sizes, and exchanged for gold dust.

The pinch coins soon were supplanted by official coinage when the California assay office issued coins to supply the demand.

Another novel coin of the early days of the west was a "slug," and it, too, was privately minted. It is theorized that the name, "slug," was derived from the fact that several heavy slugs placed in a sack created a handy and convincing weapon.

The later settlers of the west who made their way across the country in covered wagons have been recorded for posterity on the reverse of the 1926-39 Oregon trail memorial half dollar. Other symbols of the great westward, ho, movement was the buffalo or Indian head nickel and the gold Indian head incuse type half eagle.

A "forty niner" panning gold is pictured on the California diamond jubilee half dollar of 1925.

While coinage history was being made in the west, the Philadelphia mint designers were busy, too. What experts consider as one of the most beautiful of all American coins — the flying eagle cent—was minted in 1856. The first Indian head cent appeared in 1859.

## Rushville, Ind. Forms New Club

Residents of the Rushville, Ind., area have recently formed the Rush County Coin Club.

Elected to serve as president of the organization was Paul Cameron. He will be assisted by Dr. Melvin H. Denny, vice president; Sharlee I. Kyser, secretary; and J. Gayle Pike as treasurer.

The group's main purpose is "to encourage and promote interest in numismatics, to cultivate friendly relations among collectors, students and dealers, and to especially encourage and assist amateur collectors.

Persons wishing information about the club may contact the officers or any of its 19 charter members.

Gold was made legal tender in Massachusetts by an act passed in 1762.

"Too high! Could've got it at Hal's Coin Shop at half price—right to the day he went broke."

## Japanese Obans Provide Basis For Ancient Fable

Was a Japanese temple really roofed with golden obans? Was the gleam so brilliant it could be seen for a thousand miles?

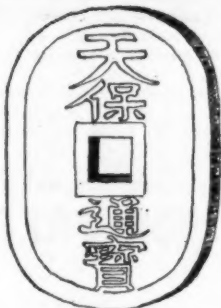

Or was this story one of Oriental imagining?

This tale was one of many that sifted from ancient Japan when finally the western world began to learn of her culture, just a little less than a century ago.

(Japan refused to have contact with the outer world until Commodore Matthew Perry's famous expeditions in 1852 and 1854.)

Few who watch President Eisenhower's "Peace Pilgrimage" realize American-Japanese relations are only a century old!

Even as late as 1877, it was believed that there were only three specimens of the oban of Japan in the United States.

Japanese Oban

The oban, coined by the Japanese in the 14th century of gold, was designed as a flat placquet-type of coin, and could very well lend itself to the roofing of a temple.

Even after the initial American overtures of friendship, the Japanese were determined their currency would remain within the "land of the rising sun."

It is said that no coin was to be allowed to be taken from the country! If it was removed from Japan knowingly, the penalty was death! If the money was taken out by accident, the sentence would be a prison term.

The face of the oban is covered with symmetrical oboid lozenge-shaped flutings and stamped at each end and both sides with Japanese characters.

The reverse is plain and, like the face, is stamped with characters in circular rings of different sizes. Each differs from the other. A large black character of elaborate finish is inked upon the face. This is said to be the coin's certificate of value.

One of the first specimens ever to reach the United States measured six inches by three and five-eighths inches and weighed 5.30 ounces. It was an alloy of gold and silver, and was valued at \$75.25 at the time it was placed in the U.S. mint cabinet. It was dated 1660.

The Japanese coins of today are 50 sen; one, five, ten and 50 yen; 100 sen equal one yen.

### Thief Returns Loot

A remorseful coin thief with a conscience returned coins including a \$3 gold piece, stolen six months ago, through the mail to owner Joe Halpin, according to Coin News, published by the Heart of America Numismatic Association, of Kansas City, Mo.

## Treasure May Have Been Tax Collection

The Mount Carmel treasure—4,560 Tyrean and Roman silver coins unearthed at Usfiya by a Druze farmer recently—may have been a tax collection sent from Jewish communities in Phoenicia to the Jerusalem Temple treasury during the spring of the year 67 A.D., according to Leo Kadman, eminent Israeli numismatist.

Kadman, who is chairman of the Israel Numismatic Society, with headquarters in Tel Aviv, believes the treasure was buried when a Jerusalem-bound tax collector's caravan encountered Vespaian's Roman legion outposts on the Carmel, which effectively blocked the southern route.

The Israeli expert said his theory was based on the uniform issue and total quantity of the three types of coins found—shekels, half shekels and Roman dinars.

"The finds are the most significant of their kind ever made in Israel," Kadman avowed. "They verify the details of the methods of tax collection practiced during the days of the Second Temple." (Coin World's detailed story of the discovery of this famous hoard was contained in the May 26 edition.)

## Iowa Thief Takes Proof Sets, Dollars

Proof sets and silver dollars were among \$200 worth of coins taken from a Des Moines, Iowa, collector's home.

Don Roush, 4046 Third street, Des Moines, reported the thief took 11 silver dollars, proof sets, etc., amounting to \$200 but overlooked the remainder of the collection.

Lincoln Memorial and Monticello appear on both coins and paper money in the United States.

## Confederation Plans Meeting

The Appalachian Confederation of Coin Clubs—a numismatic association of coin clubs within a radius of 200 miles of Bristol, Tenn., and Va., will hold its first annual convention and auction in Bristol, Va., at the Hotel General Shelby Friday and Saturday, September 9 and 10. T. H. Gregg, the general chairman, announced today.

This new confederation was formed from a convention and auction held at Johnson City, Tenn., the past two years.

"These conventions have been a success and we have every expectation that the convention this year will be larger and better because we have the cooperation of about 20 clubs, all confederation members," Gregg said.

"Already we have several nice exhibits lined up and 14 bourse tables are engaged," the chairman concluded.

## Beloit, Wis., Club Plans Convention

First plans for an area convention to be held in Beloit, Wis., this fall were discussed by members of the Rock River Valley Coin Club at a session held at the Y.M.C.A. in Beloit. An auction was also held.

The club meets the first Tuesday of each month in the Rotary room at the Y.M.C.A., according to Martin Kades, who invites visitors.

## Wichita Club Meets

A roll of uncirculated Denver nickels brought \$160 at an auction, highlight of the last meeting of the season for the Wichita (Kans.) Coin Club.

The meeting was held at Sedgwick County courthouse. Club President Roy W. Osburn said 129 persons attended.

Regular meetings will be resumed in the fall; a watermelon picnic is scheduled for August.

## Russian Coins Highlight N.Y. Club Meeting

There was a Russian flavor to the recent meeting of the Brooklyn, (N.Y.) Coin Club, held in the Venetian room of the Grenada Hotel — Victor Melnechuck explained and displayed his centuries-old collection of Russian coins.

All of the evening's exhibits were of Russian origin and influence; there was a special intermission for the viewing and explanation of them.

The club's attention was turned to coming events during the business session—the planning of "Old Timers Night" to be held in October with Max Kaplan, Frank Porcaro and Tom Wass as members of the planning committee; the Newark convention September 10 and the Bergen County Coin Show November 11.

The Louis S. West A.N.S. medal, the Eliasberg collection at the Smithsonian Institution and the success of the recent Metropolitan New York Numismatic Convention were discussed during the meeting. Ray Callo reported the winnings of the Brooklyn members at the New York event.

An honorary membership for Charles Ryan, who was president and a diligent worker for the club, was proposed.

"Roll collectors are not numismatists but are either hoarders, speculators or investors and should form their own group, some thing comparable with mint errors or freaks," was the heated consensus of discussion by several members, according to James A. Brown, the club secretary.

They also voiced protest at the sale and advertisement of altered date coins.

## A.V.A. Plans 10th Convention

Members of the American Viceroy Association, transportation token collectors, will hold their annual convention August 6 and 7 in Austin, Texas.

The tenth annual convention will be held at the Stephen F. Austin Hotel. Daniel DiMichael, secretary, may be contacted at P. O. Box 485, Coatesville, Pa. and Eroy L. Kimmons, 521 E. Live Oak street, Austin 4, Texas, is chairman.

The 1850 double eagle was the first United States coin to bear the designer's initials.

## Oregon Numismatic Society Likes Picnics, Banquets

Oregon Numismatic Society, Portland, Ore., has one life member and 170 regular members, who participate in a summer picnic, fall banquet and 12 meetings per year.

Established in September, 1936, the club meets the second Monday of each month, 8 p.m., at the Multnomah Hotel, 319 South West Pine street. Officers are elected in December.

The board of directors is composed of William Worth, Jim Young, and Lester Halpin, all of Portland.

Marie Davis, Portland, is presi-

dent; Lloyd Ruff, Portland, treasurer; William G. Walton, Portland, recording secretary; and Helen Baranovich, Vancouver, Wash., is corresponding secretary.

## Calif. Club Debates U.S., Foreign Issue

"Is the collecting of only U. S. coins a hindrance to the art and science of numismatics?"

This debate topic formed the program of the West Valley Coin Club at its recent meeting held at Carpenter's Hall, Reseda, Calif.

On the affirmative was George (historical) Baude and his partner Paul (ancients) Newell. On the negative side was Mary Ellen (mint error, modern U. S. from 1700 to date and rolls) Newell and Lucky (roll 'em, I'll take 'em) Wollard.

A series of controversial facts were brought to light in the informative discussion.

Wollard officiated at the evening's auction; supplies and choice were available at the bourse.

Virginia Culver and Katherine Newell were congratulated on their recent displays—the former had the first place winning exhibit on Civil war tokens; the latter, exhibited coins and President's signatures.

A public coin auction was held May 29 at Carpenter's Hall with George Bennett as the auctioneer.

Librarian George Baude advised club members he would like to acquire a complete set of the Red Books; the eighth, ninth and 10th editions are available; Baude is inviting donation of other volumes.

Paul Newell, Warren Overlin, Clay Reed and Pat Zabel are members of the board of directors.

## Jenkins' Shop Moves Location

He is a new member of the San Diego Numismatic Society.

## Meeting Date Changed

The July meeting of the San Diego Numismatic Society, regularly scheduled for July 4, will be held on July 11 instead.

## N.J. Club Hosts Fete

Garfield (N. J.) Coin and Stamp Club was host for the 1960 New Jersey convention. It sold 28 bourse tables and held a 2 session auction. Exhibit awards were given to the various winners.

The club is now making plans for the 1961 convention, besides a dinner for club members.

Established in October, 1958, there are 44 regular members and four junior members. It meets the second Friday of each month in the Somerset Hotel, 100 Somerset street, Garfield. Meetings are held at 8:30 p.m. Every other meeting an auction is held.

Officers are elected in January. Joseph Angello, Passaic, is president; Emil Menkovich, Lodi, vice president; Charles Lotpeich, Garfield, secretary-treasurer and librarian; Isabella Cavallieri, Paterson, assistant secretary; and Al Faraldi, Union City, is sergeant at arms.

The first coin struck bearing letters G.S.L.C.P.G. for Great Salt Lake City Pure Gold was the 20 dollar piece. Its actual value was only 16 to 18 dollars.

## Club Stresses Publicity

Radio publicity for the Sterling-Rock Falls Coin club of Sterling, Ill., is being stressed along with local newspaper publicity in an effort to increase membership.

Meetings are held the second Thursday, 8 p.m., at the Sterling Y.M.C.A., 402 First avenue, Sterling, Ill.

The club participates in National Coin Week and also exhibits coins at the hobby show at Dixon, Ill. There is a special auction

## S. A. Tour Brings Brazilian Coinage Statistics To Light

President Eisenhower's South American tour and his distribution of coins as tokens of good will earlier this year, brought to light the fact that coins were being struck in Brazil 100 years before the first American issue!

A mint was established in San Salvador da Bahia, Brazil, in 1694. It was later transferred to Rio de Janeiro and Pernambuco, and then back to Rio as a permanent establishment in 1702.

The Bahia mint was later opened as a branch in November, 1714, to produce gold, silver and copper coins. It continued as a branch operation for more than a hundred years.

In 1721 another branch mint was founded in the province of Minas - Geraes; here the gold pieces of the weight and value of those issued at the capital were struck—plus three other pieces of different weight. This branch remained in existence only 10 years.

Prior to 1703, money struck in

Brazil was current only in that country, but later it was to become the general circulating medium throughout the mother country of Portugal.

An imposing mint was erected in Rio de Janeiro in 1858 that rivaled and surpassed some of Europe's most famous mints.

It was divided into a spacious central section with five large press rooms; a director governed its operation and supervised the melting and assaying of the metals and the engraving of the dies of the coins and stamps.

Six large steam presses, con-

Typical of the 1826 Brazilian coinage is the three patac, shown above. It is also known as the 960 reis.

## Okla. Club Plans Show

The Southeastern Oklahoma Coin Show, sponsored by the McAlester (Okla.) Coin Club, will be held Sunday, July 24, at the Veterans of Foreign Wars Hall in McAlester, according to Graves Deel.

Doors open at 8 a.m. with registration at 9 a.m., explained Deel, who said there will be exhibits, bourse tables, a big auction and 10 special prizes.

This first annual club activity is sponsored to bring together collectors, dealers and other club members of the area to stimulate the hobby and to get acquainted.

James E. Walsh, treasurer of the show, who resides at 617 E. Van Buren avenue, McAlester, said luncheon tickets will be \$1.35. Bourse tables will be available to dealers for \$5. A fee of 10 per cent gross will be assessed on all coin sales at the auction. There is a limit of five lots; all items must be registered with the auctioneer by noon.

"Reservations for the bourse tables must be made not later than Monday, July 18," warned the treasurer who is accepting the applications.

The high noon luncheon of Italian foods will be served cafeteria style.

For 23 years the beavers on the Canadian five cent pieces were missing a wrist—the furthest from the body, but in 1959 the Mint presumably caught up with the omission and supplied the beaver with two.

COIN ALBUM

## THE LIBRARY OF COINS

Complete visibility and complete protection, the two most-wanted features of a coin album, are presented for the first time by THE LIBRARY OF COINS. Bound like books, handsome and compact, each Library of Coins volume displays and protects its coins between two sliding panels of clear, tough plastic. Each coin "porthole" has printed next to it full data on mint mark and quantity minted. Each volume contains a brief background story on the coins, giving both the novice and advanced collector helpful information, including a listing of the rare dates.

Measuring 8 1/4" x 6 1/4", the volumes are low priced, sturdily manufactured, and permanently bound in a variety of identifying colors for the various denominations. Their compact size permits the storing of a large coin collection in very small space. Backbones are clearly gold stamped so that they are as readily identifiable as are books.

The Library of Coins represents the first major innovation in high grade coin albums in more than 30 years, and was several years in development. Designed by numismatists, the Library of Coins is designed to satisfy the needs and desires of numismatists. Write for descriptive circular on the Library of Coins.

Our albums and books are available at your local coin dealer, stamp dealer, book store, hobby shop or at department store coin counters.

Dealers are invited to send for our Wholesale Price List, using their business stationery and furnishing suitable credit references as to their commercial status.
